BESPOKE JOINERY & WINDOWS

Hilston & Bennett

Timber windows & doors, made to measure

Sash and case windows, casement windows and timber doors, made in our own workshop for period homes, listed buildings and conservation areas across Scotland.

BROCHURE 2026

GLASGOW · EDINBURGH · STIRLING · PERTHSHIRE

ABOUT US

Craftsmanship since *1981*

Hilston & Bennett design and make bespoke timber windows and doors for homes, listed buildings and the trade across central Scotland. Every piece is made to your exact sizes and style in our own workshop, using premium, responsibly sourced timber and proven joinery methods built to last.

We specialise in conservation areas and heritage properties, replicating original details so new windows and doors look right on the street while performing to a modern standard.

We offer supply and fit or supply only on all of our windows and doors, and we also supply the trade.

1981	40+	100%
ESTABLISHED	YEARS OF CRAFT	MADE TO MEASURE

Windows made for *Scottish homes*

Sash & case windows

Traditional sliding sash and case windows, handmade to match the proportions and detail of your property. Ideal for tenements, villas, townhouses and listed buildings.

- Single or double glazing, including slim heritage units
- Traditional horns, astragals and mouldings
- Draught sealing and modern balances
- Primed or painted in one or two colours

Casement windows

Timber casement windows for cottages, villas and modern homes, side or top hung, with the same attention to detail as our sash windows.

- Single or double glazing
- Flush or storm-proof styles
- Heritage or contemporary ironmongery
- Made to your exact sizes

Doors, ironmongery *& bespoke joinery*

External timber doors

Panelled and period front doors, plus French and patio doors, in a range of hardwoods with single or double glazing.

Stable doors

Timber stable doors that open top and bottom independently. The top half can be glazed to let in more light.

Ironmongery

Sash lifts, fasteners, handles, knockers and letterboxes in brass, chrome and black to finish your windows and doors.

Bespoke joinery

One-off pieces made in our workshop to suit your property, from matching original details to complete new designs.

GLAZING & HERITAGE

Built for listed buildings & *conservation areas*

Single & double glazing

Choose single glazing where originals must be matched, or double glazing for warmth and lower heating costs. Slim heritage double-glazed units keep the look of fine astragals.

Conservation double glazing

Very slim units with an edge seal of only 5mm, fixed with timber beads or traditional putty, and finished with an invisible self-cleaning coating on the outer pane.

Listed buildings & conservation areas

We replicate original profiles, mouldings and proportions so your new windows and doors meet local requirements and keep the character of the building.

WHY CHOOSE US

The art of *personalised craftsmanship*

01 Expertise & craftsmanship

Decades of experience making bespoke sash and case windows and timber doors by hand.

02 Made for you

Fully bespoke designs to suit your home, its architecture and your style.

03 Premium materials

Top-grade timber from sustainable, responsible suppliers, chosen to last.

04 Energy efficiency

Single or double glazing and modern sealing to cut heat loss and energy bills.

05 Historical accuracy

Period-correct designs for conservation areas and heritage properties.

06 One team, start to finish

Our own team handles every step, with one point of contact throughout.

LATEST PROJECT

Tanglin, *Dunblane*

A conservation-area home in Dunblane, fitted with bespoke timber sash and case windows and doors made in our workshop to suit the character of the property.
